## **Independent Auditors' Review Report**

To the Board of Directors of APAQ Technology Co., Ltd.

### **Introduction**

We have reviewed the consolidated balance sheets of APAQ Technology Co., Ltd. and subsidiaries as of March 31, 2020 and 2019; and the related consolidated statements of comprehensive income, changes in equity and cash flows for the three-month periods then ended, and notes to consolidated financial statements (including summary on significant accounting policies). Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard (IAS) 34 “Interim Financial Reporting”, endorsed and issued into effect by Financial Supervisory Commission. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

### **Scope**

Except for matters described in the following paragraph titled "Basis for Qualified Conclusion", we conducted our reviews in accordance with the Statement of Auditing Standards No. 65 “Review of Financial Information Performed by the Independent Auditor of the Entity.” A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. Since a review is substantially less in scope than an audit, we might not be fully aware of all material matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Basis for Qualified Conclusion**

As stated in Note VI(VI) of the consolidated financial statements, investments accounted for under the equity method of APAQ Technology Co., Ltd. and subsidiaries amounted to NT\$45,513 thousand and NT\$45,697 thousand as of March 31, 2020 and 2019, respectively. The share of profits (losses) of associates accounted for under the equity method were NT\$281 thousand and NT\$(238) thousand for the three months then ended, respectively. Those amounts were recognized based on financial statements of the investees for the same period and have not been reviewed by independent auditors.

## Qualified Conclusion

Based on our reviews, except for possible effects from financial statements of the investees mentioned in the paragraph titled "Basis for Qualified Conclusion" if they were reviewed by independent auditors, we did not discover matters which would lead us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial status of APAQ Technology Co., Ltd. and subsidiaries as of March 31, 2020 and 2019, and its consolidated financial performance and cash flows for the three-month periods then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 "Interim Financial Reporting" endorsed and issued into effect by Financial Supervisory Commission.

Except for the following descriptions, there has been no significant changes in the fair value of the consolidated company's financial instruments and the exposure to credit risk, liquidity risk and market risk arising from the financial instruments. Please refer to Note VI(XXIII) of the consolidated financial statements for relevant information.

#### 1. Credit risk

##### (1) Credit risk concentration

The consolidated company's customers are concentrated in industries such as consumer electronics, computer peripherals and wireless communication and so on. To reduce the credit risk of the accounts receivable, the consolidated company continuously assesses the customers' financial position and regularly evaluates the possibility of the collection of accounts receivable, as well as making allowances for loss. Please refer to Note VI(IV) for credit risk exposure of accounts receivable.

Other financial assets at amortized cost included other receivables from related parties and time deposits. No impairment loss was recognized.

The above-mentioned financial assets have low credit risk, so the allowance loss is measured based on twelve-month expected credit loss of the period (please refer to Note IV(VII) for details on how the consolidated company
